Sapporo, Japan

SUMMARY

As a senior developer, I have experience of 3+ years. I have been involved in development of so many websites based on AI. I have a deep understanding of blockchain and python.

EDUCATION

Bachelor of Science in AI and ML

Hokkaido University, Sapporo | 2011.4 - 2015.9

- Data Structures and Algorithms
- Database Systems
- Operating Systems
- Programming Languages

SKILLS

- Strong organizational and time-management skills
- Exceptional communication and interpersonal skills
- Ability to work independently and as part of a team
- Detail-oriented and able to handle multiple tasks simultaneously
- Experience in managing budgets and handling financial documents

LANGUAGES

- Japanese: Native Speaker
- English: Fluent

PROFESSIONAL EXPERIENCE

Blockchain Developer

Parasol Finance & Job Wizard, Remote | 2023.3 - 2024.7

- Seamlessly integrated Solana contracts into the website, reducing potential vulnerabilities by 15% while ensuring secure transactions and data integrity.
- Integrating multiple Solana wallets into the IDO platform increased user accessibility and engagement by 25%.
- Solved complex tasks of automatically filling out various form elements across multiple work websites, increasing efficiency by 20% and ensuring a seamless user experience.
- Collected massive amounts of information data from multiple sites using powerful Python scraping that evades bot detection.

AI Expert

Think to Share, Remote | 2020.9 - 2022.6

- Experience with a strong background in developing machine learning models and deploying AI solutions using Python and TensorFlow.
- Successfully collaborated with cross-functional teams to create data-driven applications, improving decision-making processes and operational efficiency.
- Led the implementation of natural language processing (NLP) algorithms, enhancing user interaction and engagement by 30%.
- Authored comprehensive technical documentation and design specifications, ensuring clarity and alignment with project goals.

Full Stack Developer

Self-employed, Remote | 2019.2 - 2020.7

- Experience in building DApps using HTML, JavaScript and Node.js and interact with Ethereum Blockchain by using Web3 JS API and metamask.
- Worked with another developer to implement RESTful APIs in Node.js that enabled the analytical team of five to increase reporting speed by 20%.
- Preparing Design document after getting the requirements from the client, where the design documents contain the pseudo code, Data Flows diagrams etc.
- Increased customer rating and satisfaction from 50% to 90% by implementing new ideas in smart contracts for NFT minting.
